Post Examination

i

Post Examination module deals with the configuration of Assessment Data Entry Software (ADES) and provides for pre-requisite data for Examination Result Processing Software (ERPS). The ADES is an Intranet based Assessment Data Entry Software which is deployed and functioning at the Assessment Data Entry Center (ADEC). The ADEC or CAP Center (Centralized Assessment Process Center) is the premise where valuation of papers is done. To facilitate the functioning of this software at the designated Center, the user has to provide 'ADES Configurations', prepare required data for the ADES to facilitate Assessment (Marks) data entry, prepare data for ERPS so as to process the result based on the marks data entered in ADES. The 'Result Data Porting' section deals with activities after the porting of result data using the Result Porting tool on the Portal.
